BlackBall(R) and Newisys(R) Announce Joint Product; Award-Winning Company Embeds Industrial-Strength Search Into New Network Attached Storage Product

SAN DIEGO--(BUSINESS WIRE)--May 18, 2006--BlackBall(R) Inc., a leading provider of unstructured data management solutions, and Newisys, Inc., a leading developer of computing and storage designs, today announced that Newisys(R) will integrate BlackBall's SearchIn(TM) application with their NA-1400 Network Attached Storage (NAS) Appliance, providing a powerful tool for end users to dramatically reduce response time to real-time requests from customers, partners or co-workers.

"As a premier Original Design Manufacturer (ODM), Newisys is fueling growth in the NAS market with their recent product introductions," said BlackBall President, Patricia Brown. "However, users of NAS storage need tools to effectively manage their information. We're pleased to have the opportunity to apply BlackBall's technology to the Newisys NAS Appliance. This combined offering will provide an attractive solution to OEM storage providers and resellers."

"The external storage market is changing dramatically and solutions providers need ways to maximize profits, leverage modularity and reduce time-to-market. The Newisys-BlackBall combination joins a high-quality storage platform with on-board data management and search," said Barry Hutt, Director of Product Strategy and Market Development, Newisys. "We are very excited to combine our unparalleled design and vertical integration model with the SearchIn product offering."

BlackBall's SearchIn Server Edition software runs on 32-bit Windows Server Operating Systems, RedHat, Debian, and SuSE Linux, Sun Solaris and Mac OS X. SearchIn Server Agents support the above plus HP-UX, AIX, and Novell NetWare. SearchIn Network Storage Edition runs on Windows Storage Server and ApplianceWare's NAS OS. SearchIn Archive Edition software runs on 32-bit Windows Server Operating Systems, RedHat, Debian, and SuSE Linux, Sun Solaris and Mac OS X. SearchIn Server is available as a free trial download at www.blackball.com. SearchIn Server Edition retails for \$695.00, Server Edition Agents retail for \$395.00, SearchIn Network Storage Edition retails for \$695.00, SearchIn Archive Edition retails for between \$2,995.00-\$99,995.00 and SearchIn Professional Seat Licenses retail for \$29.95.
